

# **1. IDENTIFICATION**

| Product Name        | L-Lysine Sulphate (Feed Grade)                          |
|---------------------|---|
| Other Names         | L-Lysine Sulphate 70%                                   |
| Uses                | Feed additive.  |
| Chemical Family     | No Data Available                                       |
| Chemical Formula    | C12H28N4O4.H2SO4  |
| Chemical Name       | L-Lysine sulphate                                       |
| Product Description | L-Lysine sulfate and its by products from fermentation. |

#### Contact Details of the Supplier of this Safety Data Sheet

| Organisation            | Location   | Telephone       |
|-------------------------|--|-----------------|

#### **3. COMPOSITION/INFORMATION ON INGREDIENTS**

#### Ingredients

| Chemical Entity                            | Formula          | CAS Number  | Proportion |
|--|------------------|-------------|------------|
| L-Lysine sulphate                          | C12H28N4O4.H2SO4 | 60343-69-3  | >=55 %     |
| Ingredients determined not to be hazardous | Unspecified      | Unspecified | Balance %  |

#### **4. FIRST AID MEASURES**

| Description of necessary measures according to routes of exposure |   |  |
|---|---|--|
| Swallowed   | IF SWALLOWED: Rinse mouth, then drink plenty of water. Do not induce vomiting. Get medical advice/attention if you feel unwell.   |  |
| Еуе   | IF IN EYES: Immediately flush eyes with running water for several minutes, holding eyelids open and occasionally lifting the upper and lower lids. Remove contact lenses if present and easy to do. Continue rinsing for at least 15 minutes. If eye irritation persists, get medical advice/attention. |  |
| Skin  | IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs, get medical advice/attention.   |  |
| Inhaled   | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing until recovered. If respiratory symptoms persist, get medical advice/attention.   |  |
| Advice to Doctor  | Treat symptomatically and supportively.   |  |
| Medical Conditions Aggravated by<br>Exposure                      | <b>v</b> No information available.  |  |

## **5. FIRE FIGHTING MEASURES**

| General Measures          | If safe to do so, move undamaged containers from fire area. Cool containers with water spray until well after fire is out.   |
|---------------------------|--|
| Flammability Conditions   | May burn but does not ignite readily.  |
| Extinguishing Media       | Use dry chemical, Carbon dioxide (CO2), foam or water spray for extinction - Do not use water jets.  |
| Fire and Explosion Hazard | Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.          |
|                           | Thermal decomposition or combustion may produce irritating, corrosive and/or toxic gases, including Hydrogen chloride, nitrogen oxides, carbon monoxide, carbon dioxide. |

| Hazardous Products of<br>Combustion |  |
|-------------------------------------|--|
| Special Fire Fighting Instructions  | Contain runoff from fire control water - Runoff may cause pollution.   |
| Personal Protective Equipment       | Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters' protective clothing will only provide limited protection. |
| Flash Point                         | No Data Available  |
| Lower Explosion Limit               | No Data Available  |
| Upper Explosion Limit               | No Data Available  |
| Auto Ignition Temperature           | No Data Available  |
| Hazchem Code                        | No Data Available  |

# 6. ACCIDENTAL RELEASE MEASURES

| General Response Procedure              | Ensure adequate ventilation. ELIMINATE all ignition sources (if dust clouds can occur). Do not touch or walk through spilled material. Clean up spills immediately! Avoid dust formation. Avoid breathing dust and contact with eyes, skin and clothing. |
|---|--|
| Clean Up Procedures                     | Vacuum or sweep up material and place into a suitable container for disposal (see SECTION 13).   |
| Containment                             | Stop leak if you can do it without risk. Prevent dust cloud. Prevent entry into waterways, sewers, basements or confined areas.  |
| Decontamination                         | After cleaning, flush away traces with water.  |
| Environmental Precautionary<br>Measures | Prevent entry into drains and waterways.   |
| Evacuation Criteria                     | Spill or leak area should be isolated immediately. Keep unauthorised personnel away.   |
| Personal Precautionary Measures         | Use personal protective equipment as required (see SECTION 8).   |

| 7. HANDLING AND STORAGE |
|-------------------------|
|-------------------------|

| Handling  | Safety showers and eyewash facilities should be provided within the immediate work area for emergency use. Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Minimise dust generation and accumulation. Avoid breathing dust and contact with eyes, skin and clothing. Use personal protective equipment as required (see SECTION 8). Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. |
|-----------|--|
| Storage   | Store in a cool, dry and well-ventilated place, out of direct sunlight. Keep container tightly closed when not in use. Avoid exposure to moisture. Keep away from heat and sources of ignition - No smoking. Keep away from incompatible materials (see SECTION 10).   |
| Container | Keep in the original container.  |

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

| General                  | No specific exposure standards are available for this product. For dusts from solid substances without specific<br>occupational exposure standards:<br>- Safe Work Australia Exposure Standard (Nuisance dusts): 8 hr TWA = 10 mg/m3 (measured as inhalable dust).<br>- New Zealand WES (Particulates not otherwise classified): TWA = 10 mg/m3 (total); TWA = 3 mg/m3 (respirable). |
|--------------------------|--|
| Exposure Limits          | No Data Available  |
| <b>Biological Limits</b> | No information available.  |
| Engineering Measures     | A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing  |

dispersion of it into the general work area.

| Personal Protection Equipment | <ul> <li>Respiratory protection: In case of inadequate ventilation, wear respiratory protection. Recommended: Dust mask/particulate respirator (refer to AS/NZS 1715 &amp; 1716).</li> <li>Eye/face protection: Wear appropriate eye protection to avoid eye contact. Recommended: Safety glasses.</li> <li>Hand protection: Handle with gloves. Recommended: Impervious gloves.</li> <li>Skin/body protection: Wear appropriate personal protective clothing to avoid skin contact. Recommended: Overalls; Protective shoes or boots.</li> </ul> |
|-------------------------------|---|
| Special Hazards Precaustions  | No information available.   |
| Work Hygienic Practices       | Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Take off contaminated clothing and wash it before reuse. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces.  |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

| Physical State                 | Solid   |
|--------------------------------|---|
| Appearance                     | Granular  |
| Odour                          | Characteristic  |
| Colour                         | Light brown   |
| рН                             | 3.0 - 6.0 10 g/l in water (20 °C)   |
| Vapour Pressure                | No Data Available   |
| <b>Relative Vapour Density</b> | No Data Available   |
| Boiling Point                  | No Data Available   |
| Melting Point                  | No Data Available   |
| Freezing Point                 | No Data Available   |
| Solubility                     | Partly soluble in water (L-Lysine)  |
| Specific Gravity               | No Data Available   |
| Flash Point                    | No Data Available   |
| Auto Ignition Temp             | No Data Available   |
| Evaporation Rate               | No Data Available   |
| Bulk Density                   | 660 - 850 kg/m3   |
| Corrosion Rate                 | No Data Available   |
| Decomposition Temperature      | No Data Available   |
| Density                        | No Data Available   |
| Specific Heat                  | No Data Available   |
| Molecular Weight               | No Data Available   |
| Net Propellant Weight          | No Data Available   |
| Octanol Water Coefficient      | No Data Available   |
| Particle Size                  | No Data Available   |
| Partition Coefficient          | No Data Available   |
| Saturated Vapour Concentration | No Data Available   |
| Vapour Temperature             | No Data Available   |
| Viscosity                      | No Data Available   |
| Volatile Percent               | No Data Available   |
| VOC Volume                     | No Data Available   |
| Additional Characteristics     | No information available.   |
| Potential for Dust Explosion   | Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. |

| Fast or Intensely Burning<br>Characteristics                         | No information available.  |
|--|--|
| Flame Propagation or Burning<br>Rate of Solid Materials              | No information available.  |
| Non-Flammables That Could<br>Contribute Unusual Hazards to a<br>Fire | No information available.  |
| Properties That May Initiate or<br>Contribute to Fire Intensity      | May burn but does not ignite readily.  |
| Reactions That Release Gases or<br>Vapours                           | Thermal decomposition or combustion may produce irritating, corrosive and/or toxic gases, including Hydrogen chloride, nitrogen oxides, carbon monoxide, carbon dioxide. |
| Release of Invisible Flammable<br>Vapours and Gases                  | No information available.  |

## **10. STABILITY AND REACTIVITY**

| General Information                 | No information available.  |  |
|-------------------------------------|--|--|
| Chemical Stability                  | Stable under normal temperatures and pressures.  |  |
| Conditions to Avoid                 | Avoid dust formation. Keep away from heat and sources of ignition.   |  |
| Materials to Avoid                  | Incompatible/reactive with strong oxidising agents.  |  |
| Hazardous Decomposition<br>Products | Thermal decomposition or combustion may produce irritating, corrosive and/or toxic gases, including Hydrogen chloride, nitrogen oxides, carbon monoxide, carbon dioxide. |  |
| Hazardous Polymerisation            | Will not occur.  |  |

## **11. TOXICOLOGICAL INFORMATION**

| General Information | <ul> <li>Information on possible routes of exposure:</li> <li>Ingestion: Expected to be a low ingestion hazard. May cause irritation of the digestive tract and gastrointestinal discomfort, if consumed in large amounts.</li> <li>Eye contact: May cause (mechanical) eye irritation.</li> <li>Skin contact: May cause skin irritation.</li> <li>Inhalation: May cause respiratory tract irritation.</li> <li>Chronic effects: No information available.</li> </ul> |
|---------------------|---|
| Carcinogen Category | None  |

#### **12. ECOLOGICAL INFORMATION**

| Ecotoxicity                      | No information available.                |  |
|----------------------------------|--|--|
| Persistence/Degradability        | Readily biodegradable.                   |  |
| Mobility                         | No information available.                |  |
| Environmental Fate               | Prevent entry into drains and waterways. |  |
| <b>Bioaccumulation Potential</b> | Material does not bioaccumulate.         |  |
| Environmental Impact             | No Data Available                        |  |

## **13. DISPOSAL CONSIDERATIONS**

General InformationDispose of contents/container in accordance with local/regional/national regulations.Special Precautions for Land FillNo information available.
