

1. IDENTIFICATION

Product Name	Apricot Kernel Oil
Other Names	Apricot Kernel Oil RBDW; Apricot, extract [CAS#68650-44-2]
Uses	Personal care formulations; Aromatic applications; Raw material for cosmetic products.
Chemical Family	No Data Available
Chemical Formula	Unspecified
Chemical Name	Oils, apricot
Product Description	Naturally occurring vegetable oil obtained from the kernels of Prunus armeniaca. The oil may be in the crude or refined, bleached, deodorized and winterized state.

Contact Details of the Supplier of this Safety Data Sheet

3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredients

Chemical Entity	Formula	CAS Number	Proportion
Oils, apricot	Unspecified	72869-69-3	100 %

4. FIRST AID MEASURES

Description of necessary measures according to routes of exposure

Swallowed	IF SWALLOWED: Rinse mouth. Do not induce vomiting. Get medical advice/attention if you feel unwell.
Еуе	IF IN EYES: Immediately flush eyes with running water for several minutes, holding eyelids open and occasionally lifting the upper and lower lids. Remove contact lenses if present and easy to do. Continue rinsing for 10 - 15 minutes. If eye irritation persists, get medical advice/attention.
Skin	IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If skin irritation occurs, get medical advice/attention.
Inhaled	IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If respiratory symptoms persist, get medical advice/attention.
Advice to Doctor	Treat symptomatically.
Medical Conditions Aggravated by Exposure	No information available.

5. FIRE FIGHTING MEASURES

General Measures	If safe to do so, move undamaged containers from fire area. Cool containers with water spray until well after fire is out.
Flammability Conditions	May burn but does not ignite readily.
	*The product may only form ignitable mixtures or burn above the flash point.

Extinguishing Media	Use dry chemical, Carbon dioxide (CO2), foam or water spray for extinction - Do not use water jets.
Fire and Explosion Hazard	Containers may explode when heated.
Hazardous Products of Combustion	Fire may produce irritating and/or toxic fumes, including smoke and oxides of Carbon.
Special Fire Fighting Instructions	Contain runoff from fire control or dilution water - Runoff may pollute waterways.
Personal Protective Equipment	Wear self-contained breathing apparatus (SCBA) and chemical splash suit. SCBA and structural firefighter's uniform may provide limited protection.
Flash Point	>240 °C
Lower Explosion Limit	No Data Available
Upper Explosion Limit	No Data Available
Auto Ignition Temperature	No Data Available
Hazchem Code	No Data Available

6. ACCIDENTAL RELEASE MEASURES

General Response Procedure	Ensure adequate ventilation. ELIMINATE all ignition sources. Do not touch or walk through spilled material - Spills constitute a slippage hazard. Avoid breathing vapours and contact with eyes, skin and clothing.
Clean Up Procedures	When possible, recover spilled product. Larger spillage may be pumped. Absorb small spills and residues with earth, sand or other non-combustible material and transfer to a suitable, properly labelled container for disposal (see SECTION 13).
Containment	Stop leak if safe to do so - Prevent entry into waterways, drains or confined areas.
Decontamination	No information available.
Environmental Precautionary Measures	Prevent entry into drains and waterways.
Evacuation Criteria	Spill or leak area should be isolated immediately. Keep unauthorised personnel away.
Personal Precautionary Measures	Use personal protective equipment as required (see SECTION 8).

7. HANDLING AND STORAGE

Handling	Safety showers and eyewash facilities should be provided within the immediate work area for emergency use. Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Avoid breathing mist/vapours/aerosols and contact with eyes, skin and clothing. Do not ingest. Use personal protective equipment as required (see SECTION 8). Avoid overheating. Keep away from sources of ignition - No smoking.
Storage	Store in a cool (not exceeding 25°C), dry and well-ventilate place. Keep containers sealed when not in use. Protect from light and limit oxygenation (contact with air). Keep away from heat and sources of ignition - No smoking. Keep away from incompatible materials (see SECTION 10).
Container	Keep in the original container or in plastic or plastic-coated containers.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

General	No specific exposure standard is available for this product. For Vegetable oil mists (except castor oil, cashew nut or similar irritant oils): - Safe Work Australia Exposure Standard: TWA = 10 mg/m3. - New Zealand Workplace Exposure Standard: TWA = 10 mg/m3.
Exposure Limits	No Data Available
Biological Limits	No information available.
Engineering Measures	A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust

	ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area.
Personal Protection Equipment	 Respiratory protection: Wear respiratory protection in case of inadequate ventilation or if an inhalation risk exists. Recommended: Organic vapour/particulate respirator (refer to AS/NZS 1715 & 1716). Eye/face protection: Wear appropriate eye protection to avoid eye contact. Recommended: Safety glasses or googles. Hand protection: Handle with gloves. Recommended: Impervious, chemical-resistant gloves. Skin/body protection: Wear appropriate personal protective clothing to avoid skin contact. Recommended: Overalls, safety shoes.
Special Hazards Precaustions	Care should be taken when handling hot oil as it may constitute a burn hazard. Spills constitute a slippage hazard.
Work Hygienic Practices	Do not eat, drink or smoke when using this product. Wash hands before breaks and at the end of the workday. Take off contaminated clothing and wash before storage or reuse.

Additional Characteristics No in	nformation available.
Potential for Dust Explosion Not a	applicable.

Fast or Intensely Burning Characteristics	No information available.
Flame Propagation or Burning Rate of Solid Materials	No information available.
Non-Flammables That Could Contribute Unusual Hazards to a Fire	No information available.
Properties That May Initiate or Contribute to Fire Intensity	May burn but does not ignite readily. *The product may only form ignitable mixtures or burn above the flash point.
Reactions That Release Gases or Vapours	Fire may produce irritating and/or toxic fumes, including smoke and oxides of Carbon.
Release of Invisible Flammable Vapours and Gases	No information available.

10. STABILITY AND REACTIVITY

General Information	This product is not reactive.
Chemical Stability	Stable under normal circumstances.
Conditions to Avoid	Avoid high temperature warehousing. Protect from light and limit oxygenation (contact with air). *Avoid heating at more than 60°C (for cosmetic use).
Materials to Avoid	Incompatible/reactive with concentrated acids, alkalis and oxidising agents.
Hazardous Decomposition Products	The product does not decompose under normal conditions. In fire conditions a complex mixture of irritating fumes and smoke will be evolved.
Hazardous Polymerisation	Will not occur.

11. TOXICOLOGICAL INFORMATION

General Information	Information on possible routes of exposure: - Ingestion: May cause irritation of gastrointestinal tract, nausea and vomiting. - Eye contact: May cause eye irritation upon direct contact. - Skin contact: Not expected to be a skin irritant; Not expected to cause skin sensitisation. - Inhalation: No adverse effects expected under normal conditions; Mist/aerosols may cause respiratory irritation. Chronic effects: No information available.
Carcinogen Category	None

12. ECOLOGICAL INFORMATION

Ecotoxicity	Low.
Persistence/Degradability	The material is readily biodegradable (>90%) [OECD].
Mobility	Low.
Environmental Fate	Prevent entry into drains and waterways.
Bioaccumulation Potential	None.
Environmental Impact	No Data Available

13. DISPOSAL CONSIDERATIONS

General InformationDispose of contents/container in accordance with local/regional/national regulations.Special Precautions for Land FillNo information available.
